ABOUT ME

BCA 4th semester student with a growing skill set in programming, application development, and logical problem-solving. Experienced in working on academic projects and continuously learning new technologies. Passionate about building practical solutions and seeking opportunities to gain real-world experience while contributing effectively to a professional environment.

Academic Achievements

- Completed Class 10 with an overall percentage of **89%**, demonstrating strong academic consistency and foundational knowledge across core subjects. Successfully completed Class 12 with **86%**, reflecting steady performance, discipline, and the ability to handle advanced coursework.
- Actively participated in a Model United Nations (MUN) and won a Verbal Mention for impactful contributions and debate skills.
- Participated in an Inter-College IT Fest at East point College, gaining exposure to technical events, teamwork, and competitive problem-solving.

Work Experiences

- Freelance Graphic Designer / Game Designer
Worked on numerous client projects, including a Game Design which won Runner – Up prize in the KGI Tech Talk.
- Made and launched my new book “Search it!”, an entertaining puzzle book.

Certifications

- Completed Cloud computing Course – Fundamentals from UpGrad
- Completed MS office certification Course
